Message from the Guest Editors

In response to climate change, social inequality and environmental degradation, citizens in various countries developed grassroots forms of civic engagement. It appears that civic engagement has turned to the local and the material in order to establish alternative socio-material orders. Community supported agriculture, zero-waste-networks, community gardens, repair cafés, upcycling projects, eco-villages, energy cooperatives, slow food, and green mobility are just a few examples for this development. These phenomena have been studied under conceptual frameworks such as grassroots innovations, real utopias, degrowth, prefigurative politics of sustainable lifestyle, conviviality or solidarity economy. They have promoted a turn towards material objects, infrastructures, bodily practices, emotions, and tangible space within the research of social-ecological transformation. Most of the studies in this field address questions of how to scale-up related practices or interpret this development as part of movement mobilization that try to decrease the dominance of growth economy in everyday life.

Message from the Editor-in-Chief

Social Sciences is an international open access peer-reviewed journal publishing the latest research across all disciplines of the social sciences including anthropology, criminology, economics, education, geography, history, law, linguistics, political science, psychology, social policy, social work, sociology and related areas. The journal is especially interested in interdisciplinary research, and aims to facilitate the interaction and communication between different social scientific disciplines. The journal welcomes conventional length articles as well as shorter Research Notes or short articles, as long as they meet the journal's standards of quality and originality.

Author Benefits

Open Access: free for readers, with article processing charges (APC) partially funded by institutions through Knowledge Unlatched for a limited number of papers in 2019. Please contact the editorial office before submission to check whether KU waivers, or discounts are still available.

High visibility: Indexed in Scopus and other databases.

Rapid publication: manuscripts are peer-reviewed and published online approximately 24.2 days after submission; acceptance to publication is undertaken in 4.8 days (median values for papers published in this journal in the second half of 2018).
